

# GREAT BEND COOP

Please join us for a grain marketing opportunity with the John Stewart and Associates (JSA) program through your local Coop.

## What is the JSA program?

- This program draws off the experience of trading professionals to set the futures price on a portion of your corn, soybean, and wheat production. Multiple pricing windows for bushels to sell off the combine or out of the bin adds flexibility to your grain marketing plan.
- Those who have used this program have received a 13% price advantage on corn and a 6% price advantage on soybeans to those who sold at cash prices during the fall.
